

Carl H. Haglund and Michael E. Resner Scholarship

Established in 2017 by Carl H. Haglund and Michael Resner

This scholarship is intended to help ensure a viable U. S. Merchant Marine through the training of individuals in Marine Transportation, Marine Engineering, or the related curriculums. The funds are to help those who need assistance to continue their educational journey, which should continue throughout life. Both of us – Carl Haglund and Michael Resner – benefited from our Texas A&M University at Galveston education. Following graduation and a few years of licensed at-sea work, our experiences led to very successful shoreside careers.

We wanted to repay that benefit, in the hope that this small gesture encourages the recipients to help others when they are able to do so -> Pay It Forward.
