Student Research Symposium: Research Posters

POSTER NUMBER: **PRESENTER:**

CATEGORY: **TITLE:**

ABSTRACT

	Questions	Total Possible	Score
Abstract	➢ Is the abstract concise and accurate? ➢ Does it reasonably resemble the work presented?	5	
Methods	➢ Was the study/project well designed? ➢ Was the overall approach appropriate for the problem? ➢ Does the work make a contribution to the field of study?	15	
Results & Discussion	➢ Were the results explained and were the original questions/goals answered with the results? ➢ Does the student understand the contribution of the study?	10	
Poster Quality	➢ Was the presentation supported by a balance of appropriate text and graphics? ➢ Is there a logical flow to the information? ➢ Was the poster pleasant to look at?	10	
Presenter Quality	➢ Did the presenter lend confidence in the work with their presentation? ➢ Did the presenter answer questions appropriately and demonstrate a good overall knowledge of the topic?	10	
	Total	50	

Note: Use the points listed in the "total possible" column to assess the criteria in the table. For each category, the highest number is the best score that a student may receive on the project. Note that the highest score should be used sparingly, referring only to those projects in the top 5% of all student presentations. Please carefully total your scores. The total score should not exceed 50.
